

Benton Community Foundation Donor Match Program 2009

The Benton Community Foundation's Board of Directors is eager to announce an opportunity for you to reach out and show your support for our nonprofit organizations who have been hurt by the current economic recession.

The Foundation is offering to match \$5,000 for gifts of \$10,000 or more that is donated to new or existing endowment funds that are established to support one or more nonprofit organization(s) serving the Benton Community. New named funds can be created to support the nonprofit organization(s) that are most important to you. Funds benefiting the Benton Community need extra help in the current economic situation and this opportunity is a great way to make an impact.

This Match Program begins on June 1st, 2009 and expires at the end of 2009 or when the matching funds have all been expended, whichever comes first. The Benton Community Foundation has generously set aside \$25,000 in matching funds for this great initiative.

The only restrictions include:

- Funds can be established by any individual, business, or organization.
- Only one \$5,000 match will be made per donor.
- Nonprofit organizations named as beneficiaries of the endowment fund must provide services in Benton County.

Donating to a local endowment fund passes on benefits to both you and the community.
